EXPERIENCE

May – Jun '25 **Pennine Distribution Centre** · *Digital Solutions Lead*

- Streamlined procurement by architecting an Onsignit B2B-powered ordering system for eight branches, replacing a multi-step manual process with a single mobile app workflow.
- Boosted fulfilment by 15% within days by mapping a digital product hierarchy to warehouse layout – automatically generating optimal pick paths.
- Resolved cross-system data conflicts and led integrations among Onsignit, accounting, ordering, and processing platforms while ensuring interoperability under legacy constraints, thus improving nominal stock availability by 5% overall.

Mar – Sep '25 **Pennine Distribution Centre** · *Database Administrator*

- Consolidated disparate responsibilities into a structured role to centralise operations of Worldwide Cash & Carry in one warehouse, with a view to interdependencies.
- Tripled weekly payables (>£100K) by automating data-entry using my suite of in-house scripts, clearing a months-long backlog.
- Optimised flow of goods and information with the first stock-labelling system at PDC. Provided templates with notes on extensibility and accounted for varying literacy.
- Comprehensively outlined best practices for different tasks, roles, and trained staff to ensure a smooth transition.

Summer 2015 **Premium Law Solicitors** · *Administrative Assistant*

- Handled all calls and attended to clients as the first point of contact.
- Conducted legal research, drafted correspondence, and prepared court bundles weekly.
- Archived documents, updated lists, and compiled communications before daily meetings.

Summer 2014 **Worldwide Cash & Carry** · *Retail Intern*

- Aided customers and maintained store standards in a busy environment.

EDUCATION

2018 – 2024 **University of York** · Bachelor of Science (BSc) in Computer Systems
Dissertation: *A Writing Aid That Keeps an Argument and an Outline Consistent.*

2016 – 2018 **Rochdale Sixth Form College** · 3 A-Levels
Maths (A), Physics, and Computer Science
